**Owls Head Transportation Museum  
Mid-Coast Model Festival**

This was our third year participating in the model festival and it appears it was successful for the museum. Ethan Yankura, the program director, wanted to pass on his thanks to the members for their support.

We had a very good variety of models on display and were able to keep the tables filled for the entire weekend. Members attending were Wayne, Shorty, Bob Hines and myself. Roland was ill and could not make the show as scheduled.

A few of us brought our ladies with us and spent the weekend. We got together on Friday and Saturday evenings for dinner and had a great time.

This year, for the first time, we were able to do some outdoor flying on Saturday. Bob Chapman flew his helicopter, Eric Guilmet his smaller Extra 260, powered by a DA 100!, and Bob flew one of my quad-copters to take some video.

The usually indoor flights took place with Bob Chapman, Wayne, and myself flying Vapors, UMX Extras, Hyper Taxi, mQX Quad-Copter, Arrow, and the Uberlite.

As usual, the flight simulator was a hit with the younger set being used much of the time with 4 or 5 kids around it at times.

Hopefully, I didn't miss anyone that attended or supported the event in any way. All attending had a great time and plan on going back next year.

Joe
