 Sugarloaf Regional Airport

Club Fly-In – Pease Field – July 11

It turned out to be a really nice day. Except for the brown, weevil-looking bug which was over abundant and overly friendly, it would have been a great day. These things were all over you and even under your tee shirt.

Seven club members showed up: Wayne W, Sir Francis Bedard, Darrell Edes, Bob Chapman, Dick Lahaye, Jim Adley and Art A. All flew, except Jim A. Wayne was the only one who flew an electric, that I can recall. Everything else was noisy and greasy.

Again, except for Wayne and I who put up some glider flights, hiring Bob C' workhorse Senior Kadet to lift us up into the blue yonder (wherever that is). There was some lift, but nothing booming.

Frank put some downthrust in the engine of one of his planes, otherwise there no damaging crashes

Wayne brought his own lunch. The three remaining at noontime ate the few hotdogs and rolls that I brought and cooked on my grill. By 1:00 we were done. Monsieur A

Event Cancellation

Should an event be canceled due to weather, it will be held the following day, Sunday.

Lily Pond Float Fly - July 25

Although the weather was super, only seven fliers showed up. Bob C, Rollie W, Dick L, Frank B, Jim Adley, Paul Flohn and Art A. All flew except Rollie. He had brought his SM-2 but just didn't care to fly. He did stay to the bitter end.

I continued to have problems with that OS-.40 on my LT-25. I did get in two partial flights and two trips in the canoe.

Paul put up a couple flights with his Seamaster and Levesque. Bob flew his brand new LT-40 and of course the Canadair. Jim Adley put up three flights on his old Eagle II. Dick L had several flights on his Drake and Frank also put up his Seamaster several times.

I brought my small grill and condiments. Bob C brought a package of dogs and rolls. Bob, Rollie, Chris Davis (Bob's friend) and myself ate up the dogs. We were all done by 12:30.

By the way, the only electric was Paul's Levesque

Monsieur A

Thanks to Art Aube for these two reports!

And from Bob Chapman on Lily Pond....

I will give my own brief report. I got there a little after 9am. There was 6 or so of us. I forget some of the names. Joe didn't make it. That's why no pics. I guess there was talk of a new camper that was more important. **Jeesh!!!**

I brought my 415 and managed to find and hit a submerged log. She took quite a hop out of the water. Only damage was the water rudder. Arthur is making a new bracket that will solve that prob.

Test flew the new Lt 40 on floats. The OS 52 4c ran super. Need to position the floats ahead a little. She noses over when power is applied and lot's of up elevator is need to get it on the step. Got Art to fly it some. He didn't mind seeing as he was struggling with his OS engine a little.

The biggest surprise was the weather. Started pretty gloomy then turned sunny with almost no wind. Sweet!!!

I will let the others tell their story.

Bob C.

Tis True!

I did have a new 5th wheel trailer I picked up on Friday and had to get some setup done while I had some help on Sat. I noticed the great day we had, even in Eustis. Been a poor year so far for flying. Haven't even taken my kayaks off the trailer yet this year! Rain or wind!

Joe

Harry Fish & Friends! (All photos from our web site – Thanks, Dick!)

For Sale

For Sale: Ohio R/C Model Super Chipmunk kit. This is not an ARF. Build up kit. It has a 81" wing span, flying weight is 12 - 14 lbs

Uses 1.80 to 2.02 cycle or 1.20 to 1.80 FS engines. Or a gas engine. I had the Pepsi Chipmunk and it had a Zenoah G-38. This kit is not being made anymore. Priced new it was over \$250.00. Asking \$150.00.
